New CME ECO-R100 Pellet Mill

New CME ECO-R100 pellet mill. A powerful full-sized production scale unit with one of the highest horsepower to surface areas ratio of any mill in its class, and can produce 1,500 – 10,000 lbs of pellets per hour, depending on raw material.

Features:

- - Dual 50HP, 230/460 VAC, 3-phase main drive motors
- - Safety guards with view ports on all pulleys and bearings
- - Feed-chute with hinged door for lab runs/die clean out
- - Easy-adjust dual knife posts to change pellet length
- - New die in your choice of size: 1/16" to 1/2"
- - Simple and reliable belt drive system
- - Mounted on a steel frame
- - Safety stickers with icons
- - Stainless steel hinged door with safety interlock
- - NEMA frame motors meeting US standard
- - Stainless steel feeder with inverter duty motor

Comes with one new die with your choice of hole diameter, easy-adjust dual knife posts, and uses a simple and reliable belt drive system. Options include stainless steel feeder and conditioner, auto-lube system, nitrogen/cooling ports and a force feeder.
